

GARLAND™

Bring work environments to life with the natural warmth of wood. Whether you're furnishing one office or an entire building, choose from a broad range of designs that span from crisp and modern to timeless and traditional. Whatever you select will seamlessly blend our heritage of fine craftsmanship with today's technology.

If you have something unique in mind, we can help. We specialize in innovative, custom-tailored solutions delivered with personal attention. With our strong wood tradition, commitment to the environment, and deep understanding of how people work, we strive to help you create inspiring, high-performance work spaces.

GARLAND™

Combining simple elegance and timeless design, Garland offers value and versatility in quality wood casegoods. Garland's signature is the modesty panel's gentle arc, bringing a lightness of scale to a substantial look. Eight sculpted edge profiles and thirteen finish options provide the ability to create the look that's exactly right for you.

Garland casegoods offer the flexibility to design a wide range of applications, from handsome private offices to dynamic collaborative workspaces.

Components address workspace, storage, and filing requirements as well as accommodate today's electronic tools.

Garland is built to last. Balanced panel construction provides structural integrity. Meticulously applied finishes resist wear, spills and scratches.

Select veneers ensure the beauty of wood.

Garland blends craftsmanship and advanced woodworking technologies to offer outstanding quality at an attractive price.

Garland's design makes it unique. The delicate arc on the lower edge of modesty panels conveys a light, sculpted look. The variety of edge profiles and numerous finish choices allow appearances ranging from contemporary to transitional.

Garland components can be combined to create a variety of attractive and productive workplace environments. This private office supports the need for individual, concentrated work as well as for collaborative conferencing.
