**SIESTE SLEEPER**

Sieste easily accommodates family or friends during an overnight stay and includes 3 standard lengths. It can also be customized for space limitations. Sieste Sleepers feature a simple solution for your seating and sleeping needs. With no mechanism to break, this sleeper offers a different surface to sleep on than the surface you sit on. Sieste is available with arms or low end panels (armless) to accommodate your spatial needs. Select leg position under frame or outside to achieve different looks. Integrating flexibility with comfort and function, Sieste provides an excellent solution for any facility.
